

## Inspection / Link Conveyor

**For linking of machine**

**For inspection of PCBs**

### Features

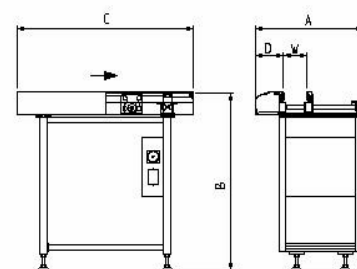

- Suitable for SMT, ICT Auto and Manual Insertion lines
- Optional stand alone operation
- Simple and flexible design
- Spacious leg room
- Multi-drive module available
- Programmable Logic Control
- SMEMA Interface for communication between machines
- Available in other conveying mediums  
e.g. Flat belt, Polycord

### **Conveyor Dimensions (mm)/Weight (approximate in kg)**

	A	B	C	D	W	Weight
( M ) series	610	*	*	160	50 to 350	*
( L ) series	780	*	*	160	50 to 510	*

\* depends on requirement or as specified

### **Machine Specification**

Cycle time	Depending on requirement or specification
Reference side	Front or rear as specified
Electrical requirement	Depending on requirement or specification
Optional Items	Lighting/Buzzer/Side table
Speed	0 - 15m / min
