

## Traverser

### For multi-lines traffic diverting of PCBs

#### Features

- Suitable for SMT, ICT Auto and Manual Insertion lines
- Able to handle multi-lines set up
- Traversed distance up to 4.5m possible
- Choice of LCD Touch Screen or Push-Button Panel
- Programmable Logic Control
- Configurable through the Operator Panel
- SMEMA Interface for communication between machines
- Multi-positioning and high speed possible
- 180° turning unit on shuttle available
- Available in other conveying mediums e.g. Flatbelt, Polycord

#### **Traverser dimensions (mm)/Weight (approximate in kg)**

	A	B	C	D	W	Weight
( M ) series	*	1300	500	160*	50 to 350	*
( L ) series	*	1300	650	160*	50 to 510	*

\* depends on the traversed distance and design

#### **Machine Specification**

Cycle time	Depending on the traversed distance and design
Reference side	Front or rear as specified
Air requirement	Depending on the traversed distance and design
Electrical requirement	Depending on the traversed distance and design
Optional Items	Tower lights/Buzzer Push-Button Panel / Touch Screen Panel Other sizes available Multi-positioning and high speed possible
