

## Work Station

### For manual assembly / inspection of PCBs

#### Features

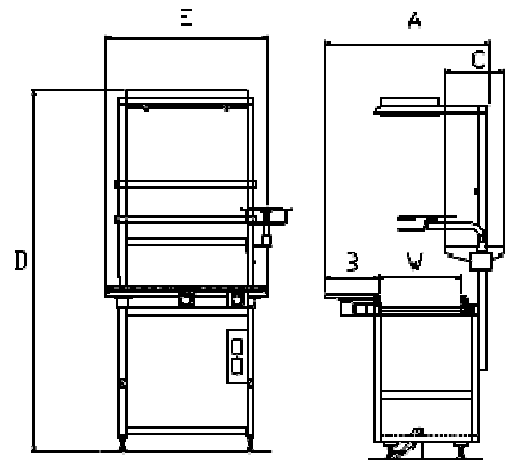

- Suitable for SMT, ICT Auto and Manual Insertion lines
- Stand alone option
- Simple and flexible design
- Spacious leg room
- Multi drive modules available
- Programmable Logic Control
- SMEMA Interface for communication between machines
- Available in other conveying mediums  
eg. Flatbelt, Polycord

#### **Work Station Dimensions (mm)/Weight (approximate in kg)**

	A	B	C	D	E	W	Weight
( M ) series	840	250	250	2100	1000 / as specified	50 to 350	*
( L ) series	1000	300	300	2100	1000 / as specified	50 to 510	*

\*Depending on requirement or as specified

#### **Machine Specifications**

Cycle time	Variable
Reference side	Depending on system configuration and design or as specified
Conveying medium	As specified
Optional Items	Overhead Light-Stand and Lighting Buzzer and Tower Light Side Table (B). Available Width at 250mm, 300mm, 350mm, 400mm Extendable Part Tray (C). Available Width at 250mm, 300mm, 350mm, 400mm Adjustable Foot Rest Document Holder or Clipboard Monitor / Keyboard Support
